

The screenshot shows the 'Generate Signed App Bundle or APK' dialog box. The 'Module' field is set to 'Vacation_Scheduler.app'. The 'Key store path' field is empty. Below it, a red arrow points to the 'Create new...' button, which is highlighted with a blue border. To the right of this button is the 'Choose existing...' button. Below these are fields for 'Key store password', 'Key alias', and 'Key password'. At the bottom, there is a checkbox for 'Remember passwords' and three buttons: 'Previous', 'Next' (highlighted in blue), and 'Cancel'.
